Customer Testimonials:

"After having some issues with several other carriers in our southeast lanes, we gave ADP a shot at the business based on the success we experienced with our northeast business. I must admit upon you telling me that you did not deliver direct and partnered with another carrier, I was a bit skeptical. However, all of my concerns and fears were quickly diminished by the performance of SEFL!! Their transit times and ability to deliver our product to my customers in excellent condition is something I truly appreciate. I can see the communication between the two of you is far and few between other partnered companies. It's such organizations such as ADP and SEFL that help make my job easier! The fact that you guys handle the majority of our shipments from our NJ facility and have the best claims ratio in doing so is something you should be proud of. I know I am!! It's a pleasure doing business with both of you and many thanks!" ~ Marc Ackerman, Corporate Manager of Warehousing & Logistics, Middle Atlantic Products

"Gar•Smith Bag Company has been using Southeastern Freight Lines and their partners for approximately 10 years now and we are very pleased with the results. A Duie Pyle has moved all our freight to the northeast throughout this period and we have been impressed with their overall level of excellence. Delivery times have been fantastic and problems - which do happen from time to time - have been addressed quickly and professionally. In tough economic times like these, true partners in business like A Duie Pyle are especially important."
~ Peter Hatt, Gar•Smith Bag Company
