Customer Testimonial:

"Harmar uses Southeastern Freight Lines through your direct service and your partnership service. We ship throughout the United States, and Puerto Rico. A lot of our business moves into the Southwest, which is serviced by your partner Central Arizona Freight. Before we gave this business to you guys, we were using another carrier for these moves. We were experiencing service issues. We decided to make a switch to your company and their partner. Since we made the change, the service issues have diminished greatly, if not gone away. Being able to get our customers their shipments on time and damage-free was worth the change. Thank you so much, Southeastern Freight Lines and Central Arizona Freight, for making our shipping operation seamless and non-event."
