Customer Testimonials:

"Specified Fittings, Inc. - Bellingham, WA. has been using Oak Harbor Freight Lines for ten plus years for our West Coast needs and the service they provide has been top notch to say the least. But it became even better when the opportunity presented itself to utilize Oak Harbor Freight Lines nationally with their partner carrier Southeastern Freight Lines. We now have confidence in the fact that no matter where our freight is at, it will arrive in a timely manner and the local service center is only a phone call away to answer any questions that may arise."

Christine Ross, Specified Fittings, Inc.

"Oak Harbor does a great job with handling our freight with the best of care. Our shipments are very expensive and fragile and our customers expect them to arrive in perfect condition. Oak Harbor makes sure that this happens. The freight always arrives on time if not sooner than expected, and we are grateful for that. We've never had any issues with Oak Harbor. We are thankful to have them partner with Southeastern for our shipments."
