

## Weather Report – February 19<sup>th</sup>, 2019 – 1:30PM (Eastern)

**\*\*\*Expect Delays\*\*\***

Our partners, Midwest Motor Express and Oak Harbor Freight Lines are reporting the following limited operations and delays today due to winter weather:

### **Midwest Motor Express:**

Will have service delays this week due to winter weather moving into the eastern portion of their service area in the states of Iowa, Kansas, Minnesota, Nebraska, North Dakota, and South Dakota

### **Oak Harbor Freight Lines:**

#### **Limited operations in the Northwest states of Idaho, Oregon, and Washington**

While most terminals are returning to normal P&D operations, highway closures throughout the Northwest region and in the Rocky Mountains along the way into this area have stalled many shipments from arriving to their destinations on schedule. We will be continuing to monitor highway openings and will look to move trailers as soon as possible as conditions have begun to improve.

If you have a shipment going to the areas listed above, please be aware that there will be delays. If you need additional assistance with a shipment that is impacted by the weather, please contact your local service center for details. As conditions change, further updates will be posted on our website [www.sefl.com](http://www.sefl.com) and our social media outlets.
