

THE MOST DEPENDABLE Service Throughout

NORTH AMERICA

Southeastern Freight Lines' National Partnerships

Our network is comprised of outstanding next day providers that deliver service excellence throughout the United States, Canada and Mexico.

Benefits

- ◆ Regional Marketing partners with a shared commitment to service excellence
- ◆ Daily, dedicated linehaul schedules
- ◆ Fewer breakbulks and less handling than “national” carriers
- ◆ Speed and consistency of transit times
- ◆ Electronic data interchange (EDI) allows for through-tracking information
- ◆ Seamless Service - Deal Directly with Southeastern Freight Lines on any issues regarding your shipment

Valued customers, proven service...

Customer Testimonials

Alumi-Guard, Inc. - Damon Clark,

“Over the last few months Alumi-Guard has experienced an increase in sales which naturally results in an increase in freight volumes. There have been multiple days that we needed 5 or 6 trailer swaps and have not been disappointed by SEFL’s ability to handle this level of volume. I would also like to mention that 40% of the freight we load on a Southeastern truck is destined to delivery by a National Partner. The excellent customer service, easy tracking and constant visibility of our freight makes shipping with your partners an easy decision.”

Richloom Fabrics - Debbie Kay

We have been a loyal customer to Southeastern for many years but only used Southeastern in their direct Southeast service area. We were using national carriers and having various issues. Our Southeastern account manager continued to sell me this service, and I was reluctant to make the change. After making the change this was the best decision Richloom could have made. We now get the same event free service all over the country that we have come to expect from Southeastern.”

Jacuzzi - David Vardeman

“Southeastern has been our carrier of choice for over 7 years here at Jacuzzi. The partnership we have shared has led us to explore the possibility of shipping to various parts of the country via Southeastern and their extended family of customer service minded carriers. It has been well handled by the operations group at Southeastern as well as their counterparts with the partner carriers resulting in a seamless transfer of product, paperwork, and most importantly service.”

Southeastern is proud to be associated with partners that the transportation industry recognized as the BEST in their respective regions!
